Be seated in the lap of luxury – The Visionnaire Anniversary Sofa Collection 2019

The Italian luxury brand, Visionnaire's 'Anniversary' collection 2019, has a luxurious range of sofas, crafted from contemporary materials that will make the simple act of sitting down an experience to be cherished. Draped with sensuous fabrics, the finest leathers and crafted with rich contemporary materials including chrome, exotic woods and satinised metal inserts, these elegant, upholstered sofas are arguably the last word in luxurious seating.

The Ca' Foscari sofa's soft shape, distinguished by concave and convex perimeter signs, make it a modern and appealing sofa. The metal base extends vertically thanks to a segment that completes the armrest and the curvature of the foot at the base is a standout feature. The curved steel provides interesting visual effects by reflecting the surrounding spaces. The sofa can be combined with an armchair having the same characteristics.

The Presence sofa designed by Steve Leung is an asymmetrical sofa with wooden feet and structure, and pleated details on the upholstery. The elliptical geometry is intentionally interrupted by the movement of the two twisted backs with different shapes.

Visionnaire's Anthem sofa is a seating program with a flexible modular design and versatile, contemporary appeal. Its many components make it possible to create compact configurations or more complex, extensive solutions. The sofa has been designed for central placement, emphasizing the external structure: it forms a sturdy shell that stands out for its elegant metal border, creating a vivid contrast with the seats, backs and armrests featuring extra-soft upholstery.

The Backstage modular sofa is again an upholstered furniture system with which one can create countless configurations: with or without armrests, fully open or closed, and filled with cushions and the backrest console. It seems to be almost suspended thanks to the base being separated from the lower chassis and the belted frame. The choice of woven leather for the upholstery of the back of the sofa enhances the hand-crafted finish.

The rigorous architectural lines of the Bastian sofa give it a sense of composure and sober elegance. The accent is on fine details, precious sartorial touches of stitching and borders. The armrests and backs are its walls, enveloping and protecting for a feeling of total serenity.

You can shop for these fine sofas on www.visionnaire-home.com
